

Workshop

Streamlining sustainable stormwater management – data, tools, pollutants and legislation

- What is missing to create streamlined sustainable stormwater management?
- How can utilities, municipalities, manufacturers and universities contribute to streamlining stormwater management in the future?

NORDIWA NORDIC
WASTE
WATER
CONFERENCE

Wednesday October 11th 2017 15:50 – 17:10
in room C – Comwell

Presentations on

Stormwater management – where are we going? Professor *Jes Vollertsen* (AAU) presents the development in stormwater management over the years.

Stormwater pollutants – Postdoc *Katrine Nielsen* (DTU ENV) describes content of pollutants in stormwater with focus on particles and how to manage them.

Environmental life cycle impacts of stormwater management – PhD *Sarah Brudler* (DTU ENV/VCS Denmark) applies life cycle assessment to assess the environmental sustainability of different ways to manage stormwater.

More presenters to come.....

Followed by an overall discussion on how to streamline stormwater management.

Organized by Postdoc *Katrine Nielsen* and Professor *Peter Steen Mikkelsen*

DTU Environment
